

**REGULAR MEETING OF THE
 ARAPAHOE COUNTY BOARD OF ADJUSTMENT
 THURSDAY, 14 APRIL 2016, 1:00 P.M.**

GENERAL BUSINESS ITEMS

APPROVAL OF THE MINUTES FROM 11 FEBRUARY 2016	VOTE:
--	--------------

REGULAR AGENDA ITEMS

ITEM 1:	CASE NO. BOA-2016-00002	VOTE:	
LOCATION:	5901 SOUTH COUNTY ROAD 181, BYERS		
ACREAGE:	35.73 ACRES		IN FAVOR
EXISTING ZONING:	A-E		OPPOSED
APPLICANT:	ELIAS LOYA		ABSTAIN
CASE MANAGER:	ALAN SNYDER		
REQUEST:	TO CONSTRUCT A SINGLE FAMILY DWELLING AND DETACHED GARAGE THAT WILL ENCROACH 75' ON THE REQUIRED 100' SETBACK TO THE SOUTH PROPERTY LINE.	<input type="checkbox"/>	CONTINUED TO: _____
ITEM 2:	CASE NO. BOA-2016-00003	VOTE:	
LOCATION:	1753 S UNITA WAY		
ACREAGE:	N/A		IN FAVOR
EXISTING ZONING:	R-3		OPPOSED
APPLICANT:	LAWRENCE BLAUWEISS		ABSTAIN
CASE MANAGER:	ALAN SNYDER		
REQUEST:	TO BUILD AN 8' FENCE AROUND THE REAR PERIMETER OF THE YARD.	<input type="checkbox"/>	CONTINUED TO: _____
ITEM 3:	CASE NO. BOA-2016-00004	VOTE:	
LOCATION:	4855 S LISBON WAY		
ACREAGE:	N/A		IN FAVOR
EXISTING ZONING:	MU		OPPOSED
APPLICANT:	DEBORAH A. McCABE		ABSTAIN
CASE MANAGER:	MICHELLE LANTZ		
REQUEST:	TO CONSTRUCT A DECK THAT WILL ENCROACH 4' ON THE REQUIRED 20' REAR SETBACK.	<input type="checkbox"/>	CONTINUED TO: _____

ANNOUNCEMENTS:

- The next regular Board of Adjustment meeting is scheduled for: 14 MAY 2016. Planning Commission, Board of Adjustment, and Board of County Commissioner agendas, and other important Arapahoe County information, may be viewed online at www.arapahoe.gov.com or you may contact the Zoning Division at 720-874-6711.

BOARD OF ADJUSTMENT MEMBERS:

REGULAR MEMBERS:	ALTERNATES:
Howard Buchalter, Chair	George A Robinson
Ken Dingman, Chair Pro Tem	Mary Garin
Ronald Lombardo	Elizabeth Crowe
Stephen Sholler	Ryan Turbyfill
Beth Kinsky	

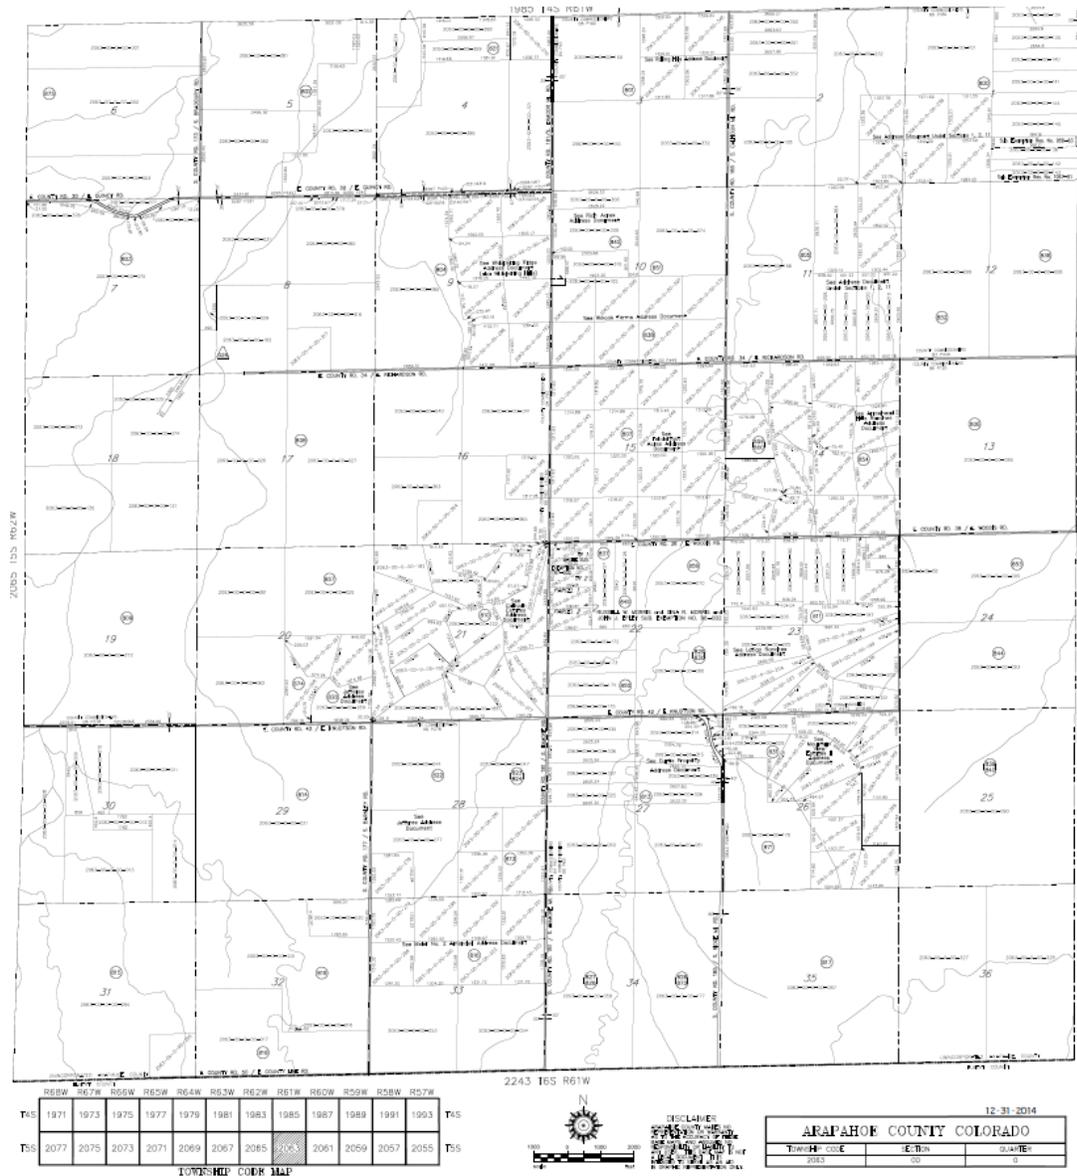

BOARD OF ADJUSTMENT PUBLIC HEARING
April 14, 2016
1:00 P.M.

SUBJECT: CASE NO. B0A-2016-00002, ELIAS LOYA
VARIANCE

Alan Snyder, Community Compliance Officer

March 31, 2016

VICINITY MAP; The site is located at 5901 S. County Rd. 181 in Byers. The property is zoned A-E (Agricultural) and located within Election District 3.

**SUBJECT: CASE NO. B0A-2016-00002, ELIAS LOYA
VARIANCE**

Alan Snyder, Community Compliance Officer

March 31, 2016

LOCATION: The site is located at 5901 S. County Road 181 in Byers. The property is zoned A-E (Agricultural) and located within Election District 3.

ADJACENT SUBDIVISIONS, ZONING, AND LAND USES:

North - A-E
South - A-E
East - A-E
West - A-E

PROPOSAL:

The owner, Elias Loya, is requesting approval of a variance to construct a Single Family Dwelling and a Detached Garage that will be 25' from the South property line. A-E setback requirements state that the all structures must be a minimum of 100' from all property lines. Due to the unusual shape of this lot, drainage concerns and a buried petroleum pipeline with a "no-build" easement, the owners are asking for relief from the A-E setback requirements to construct the buildings. The applicant meets the 100' setback from all other property lines.

BACKGROUND:

The subject property is zoned A-E (Agricultural) which allows for ranch and farm uses. The maximum building height is 50 feet. The property is 35.73 acres. The applicant would like to build a Single Family Dwelling and a detached Garage 25' from the South property line. Existing drainage concerns, sloping terrain and a buried petroleum pipeline hinder the placement of the structures to meet current A-E standards.

13-1004 CONDITIONS FOR VARIANCE

The establishment of a hardship shall be clearly demonstrated by the applicant for variance, and the following conditions must be shown by the applicant:

13-1004.01

The strict application of these Regulations would result in practical difficulties or unnecessary hardships inconsistent with the general purpose and intent of the Regulations.

13-1004.02

Any variance shall not grant special privileges inconsistent with the limitations upon other properties in the vicinity and zoning district in which the subject property is located.

13-1004.03

Because of special, applicable circumstances, including size, shape, topography, or location, the strict application of these Regulations will deprive the subject property of privileges enjoyed by other properties in the vicinity and under identical zone classification; or that there are exceptional circumstances or conditions applicable to the property involved or to the intended use or development of the property that do not apply generally to other property in the same zone or neighborhood.

13-1004.04

That the condition or situation for which the variance is sought is not of so general a nature that the formulation of regulations would be necessary to insure consistent application of the regulations.

13-1004.05

That the granting of a variance will not be substantially detrimental to the public good and will not substantially impair the intent and purpose of these Regulations.

13-1004.06

That the granting of a variance will not be contrary to the objectives of the Arapahoe County Comprehensive Plan.

DISCUSSION:

Staff review of this application included a comparison of the proposal to the Comprehensive Plan, zoning and subdivision regulations, and an analysis of referral comments.

1. Comprehensive Plan:

The Byers Sub Area Plan designates this area for Mixed-Use (Commercial/Business/Light Industry).

2. Ordinance Review and additional Background Information

The property in question consists of 35.70 acres. The applicant would like to construct a Single Family Dwelling and a Detached Garage 25' from the South property line. These locations are needed due to the sloping terrain, drainage conditions, and a buried pipeline with "no-build" easement. The applicant meets the 100' setback requirement from all other property lines.

3. Referral Comments

Comments received as a result of the referral process are as follows:

- Planning: No Comment
- Engineering: No Comments
- East Arapahoe Advisory Committee

STAFF FINDINGS:

Staff has visited the site, reviewed the plans and supporting documentation, referral comments, as well as citizen input in response to this application. Based upon review of applicable policies and goals in the Land Development Code and analysis of referral comments, our findings include:

The Single Family Dwelling and detached Garage will be situated 25' from the South property line. The buildings meet the required 100' setbacks from the North, West and East property lines.

ATTACHMENTS:

1. Variance application
2. Letter of intent
3. Site Plan/Aerial of property
4. A-E Zone District Setbacks
5. Photos of site
6. Planning, Engineering and East End Advisory comments

March 10, 2016

To whom it may concern:

I am asking for a variance on my property at 5901 South County Road 181, I would like to build 25 feet from my property line. I would like to put a mobile home on the property the home measures 60 feet long and 30 feet wide. There is the Magellan Midstar Petroleum line going through the north east side of of the property, we need to stay away 50 feet from the line, we absolutely cannot cross the line, cannot put any dirt or take any dirt from the top of the petroleum line either.

I would want the home 25 feet south of the property, the further you go west the land slopes and becomes a pond of water with rain and snow weather and there is no where for it to drain besides down into the ground. Further west the land has several more slopes and the same problem occurs, all the dark spots on the map are water deposits that form. I would also like to build a garage east of the house 40X20 as well.

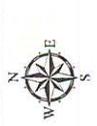

Thank you very much

Elias Loya

DAVID M. SCHMIT, P.E.
Director

Dear Applicant,

Thank you for your submittal. Arapahoe County staff has reviewed the variance request for a single family home located at **5901 S. County Road 181** and offer the following comments.

1. The project site is outside the FEMA 100-year floodplain; however please utilize necessary construction best management practices (BMPs) to minimize erosion and offsite sediment transport.
2. As the builder of the single-family home, you are required to comply with Section 9 of the Arapahoe County Grading, Erosion and Sediment Control (GESC) Manual for construction of single-family lots. You should follow the typical erosion control templates for standard lot plans; please refer to Section 9 of the GESC Manual.
3. You must use the necessary construction Best Management Practices (BMPs) to ensure no construction materials or erosion leaves the construction site. Be aware, if construction materials or erosion leaves the property before the site is fully stabilized it may be considered an illicit discharge and therefore may require a permit or possibly a fine.
4. Designate a deposition location for the excavated material that will be exported from the site, if any. The deposition site, if within unincorporated Arapahoe County, must have an approved Arapahoe County GESC permit for the material to be imported.
5. Access must meet Arapahoe County Rural Engineering Standards. See the following link:
<http://www.arapahoegov.com/DocumentCenter/View/710>.
 - I. Existing unimproved parcels requiring a building permit that utilize access roads placed prior to the adoption of this Appendix R will be required to comply with this Appendix R unless a variance from the access road improvements requirements is granted.
 - II. AR101.8 Variance and Waivers: When there are difficulties involved in carrying out the provisions of Appendix R a variance or waiver request with appropriate documentation and justification shall be submitted to the Building Official.
 - III. AR102.1 Access Surface: Facilities, buildings or portions of buildings hereafter constructed shall be accessible to emergency response vehicles by way of an approved access and driveway surfaced with asphalt, concrete or other County approved all-weather driving surface.
 - IV. AR 102.3 Drainage Crossings: For crossing any roadside ditch, a culvert shall be installed at the established flowline elevation under the access or driveway. The culvert shall be a minimum of eighteen (18) inches in diameter, consist of a minimum of sixteen (16) gauge corrugated metal pipe, and include flared end sections on each end of the culvert. All culverts shall have a minimum cover of six (6) inch compacted Colorado Department of Transportation (CDOT) Class 6 aggregate base course and be a minimum of twenty-four (24) feet in length. The slope, capacity, and flowline elevation of any drainageway and/or roadside ditch impacted by the construction of a drainage crossing shall be maintained.

MISSION

Enhancing your quality of life through exceptional delivery of services and efficient use of public funds.

6. Minimum access specification under Rural Engineering Standards Section AR103 include but are not limited to the following:
 - I. AR103.1 Approved Materials: Accesses and/or driveways shall be placed on a minimum of twelve (12) inches of suitable compacted subgrade material.
 - II. AR103.1.C All-weather surface: An all-weather driving surface shall be a minimum of six (6) inches of compacted CDOT Class 6 aggregate base course meeting gradation, compaction, and all other requirements per CDOT Standard Specifications for Road and Bridge Construction, or approved equivalent, when the material, thickness, and placement are certified and bear the stamp of a licensed Colorado Professional Engineer.
 - III. AR103.6 Width of Access or Driveway: Accesses and driveways shall have a minimum unobstructed width of twenty (20) feet, as shown in Figure AR103.6-1.
 - IV. AR103.7 Maximum and Minimum Grades: Accesses shall not exceed seven (7) percent in grade. Driveways shall have a minimum grade of not less than one-half (0.5) percent in order to prevent pooling within private property.
 - V. Accesses and driveways shall be crowned in the center with a minimum cross slope of 2% to each edge.
7. Rural Engineering Standards Section AR104 – Permits: Arapahoe County Public Works and Development will ensure that the final design of the access and/or driveway meets the minimum requirements for reasonable emergency access, safety, and the protection of soil and water natural resources. In cases where an access or driveway does not meet the minimum requirements or where a traffic hazard is created, a permit may be denied.
8. Rural Engineering Standards Section AR105 – Certification and Acceptance:
 - I. AR105.1 Access and Driveways: Sufficient guarantee must be given in the form of test reports, field reports, and drawings in conformance with the requirements of Appendix R (including geo-technical data, road base thickness, sub-grade moisture content, density, and compaction reports, as required). All submittals relating to the construction of accesses and driveways shall be submitted to Arapahoe County for review and acceptance, prior to release of a Certificate of Occupancy.
 - II. AR105.1.A Sub-grade Testing: Subgrade shall be scarified to a minimum depth of 12-inches below finished grade. Subgrade shall be adjusted to a suitable moisture content and compacted.
 - III. AR105.1.B Aggregate Testing: Aggregate Base Course materials shall be placed on an approved sub-grade found to be stable and non-yielding. At least one sample of aggregate base course for each 1,000 tons of materials placed shall be tested to determine gradation and Atterburg limits.
9. AR105.2 Certification Statement: A certification and stamp of a licensed Colorado Professional Engineer for an all-weather driving surface shall be provided. Please refer to Appendix R AR 105.2 for certification statement.

At times of building permit a letter must be submitted stating Rural Engineering Standards will be upheld for access road and driveway or a letter requesting variance to the requirements. **A letter must be submitted before a building permit can be released.** Please feel free to contact me if you have any questions.

Thank you,

Cathy Valencia

BOARD OF ADJUSTMENT PUBLIC HEARING

April 14, 2016

1:00 P.M.

**SUBJECT: CASE NO. BOA-2016-00003, LAWRENCE BLAUWIESS
VARIANCE**

Alan Snyder, Community Compliance Officer

March 31, 2016

LOCATION: The site is located at 1735 S Uinta Way in the Mountain View Gardens Subdivision. The property is zoned R-3 (Obsolete-Residential) and located within Election District 4.

ADJACENT SUBDIVISIONS, ZONING, AND LAND USES:

- North - R-3 (Obsolete-Residential)
- South - R-3 (Obsolete-Residential)
- East - R-3 (Obsolete-Residential)
- West - R-3 (Obsolete-Residential)

PROPOSAL:

The owner, Lawrence and Janet Blauweiss, is requesting approval of a variance to construct an 8' tall privacy fence around the back yard and pool/spa area for safety and security reasons. BOA-2015-00010 was approved to increase the height of the residence from 25 to 35 in elevation.

I. BACKGROUND

The subject property is zoned R-3 (Obsolete-Residential) which allows single-family dwelling units and Type A group Homes as principal permitted use. The maximum building height is 25 feet.

13-1004 CONDITIONS FOR VARIANCE

The establishment of a hardship shall be clearly demonstrated by the applicant for variance, and the following conditions must be shown by the applicant:

13-1004.01

The strict application of these Regulations would result in practical difficulties or unnecessary hardships inconsistent with the general purpose and intent of the Regulations.

13-1004.02

Any variance shall not grant special privileges inconsistent with the limitations upon other properties in the vicinity and zoning district in which the subject property is located.

13-1004.03

Because of special, applicable circumstances, including size, shape, topography, or location, the strict application of these Regulations will deprive the subject property of privileges enjoyed by other properties in the vicinity and under identical zone classification; or that there are exceptional circumstances or conditions applicable to the property involved or to the intended use or development of the property that do not apply generally to other property in the same zone or neighborhood.

13-1004.04

That the condition or situation for which the variance is sought is not of so general a nature that the formulation of regulations would be necessary to insure consistent application of the regulations.

13-1004.05

That the granting of a variance will not be substantially detrimental to the public good and will not substantially impair the intent and purpose of these Regulations.

13-1004.06

That the granting of a variance will not be contrary to the objectives of the Arapahoe County Comprehensive Plan.

II. DISCUSSION

Staff review of this application included a comparison of the proposal to the Comprehensive Plan, zoning and subdivision regulations, and an analysis of referral comments.

1. Comprehensive Plan:

The Comprehensive Plan designates this area for residential uses.

2. Ordinance Review and additional Background Information

The applicant is proposing construction of an 8' tall fence to enclose the back yard and pool/spa area for safety and security purposes. BOA-2014-00010 was approved to allow the new residence to be built at the 35' height elevation.'

3. Referral Comments

Comments received as a result of the referral process are as follows:

- Board of County Commissioners: N/A
- Planning:
- Engineering:
- County Attorney:

III. **STAFF FINDINGS:**

Staff has visited the site, reviewed the plans and supporting documentation, referral comments, as well as citizen input in response to this application. Based upon review of applicable policies and goals in the Land Development Code and analysis of referral comments, our findings include:

1. The proposed privacy fence will be 8' in height.
2. There have been no inquiry calls.

Subject: letter of intent

March 18, 2016

LETTER

OF INTENT

Reference fence variance for 1735 S Uinta Way
Denver, Co. 80231

Our intent is to construct 8 foot fence to match existing 8 foot cedar fence built by our home builder. Currently the fence only covers the rear of our property. We plan on building a complete perimeter fence to enclose in ground swimming pool to be installed. We will match existing cedar fence using self closing door locks. The horizontal support bars will be facing the interior as to not be used for climbing. This will keep a consistent appearance around the property. Also will make it impossible for children or animals to get access to the pool.

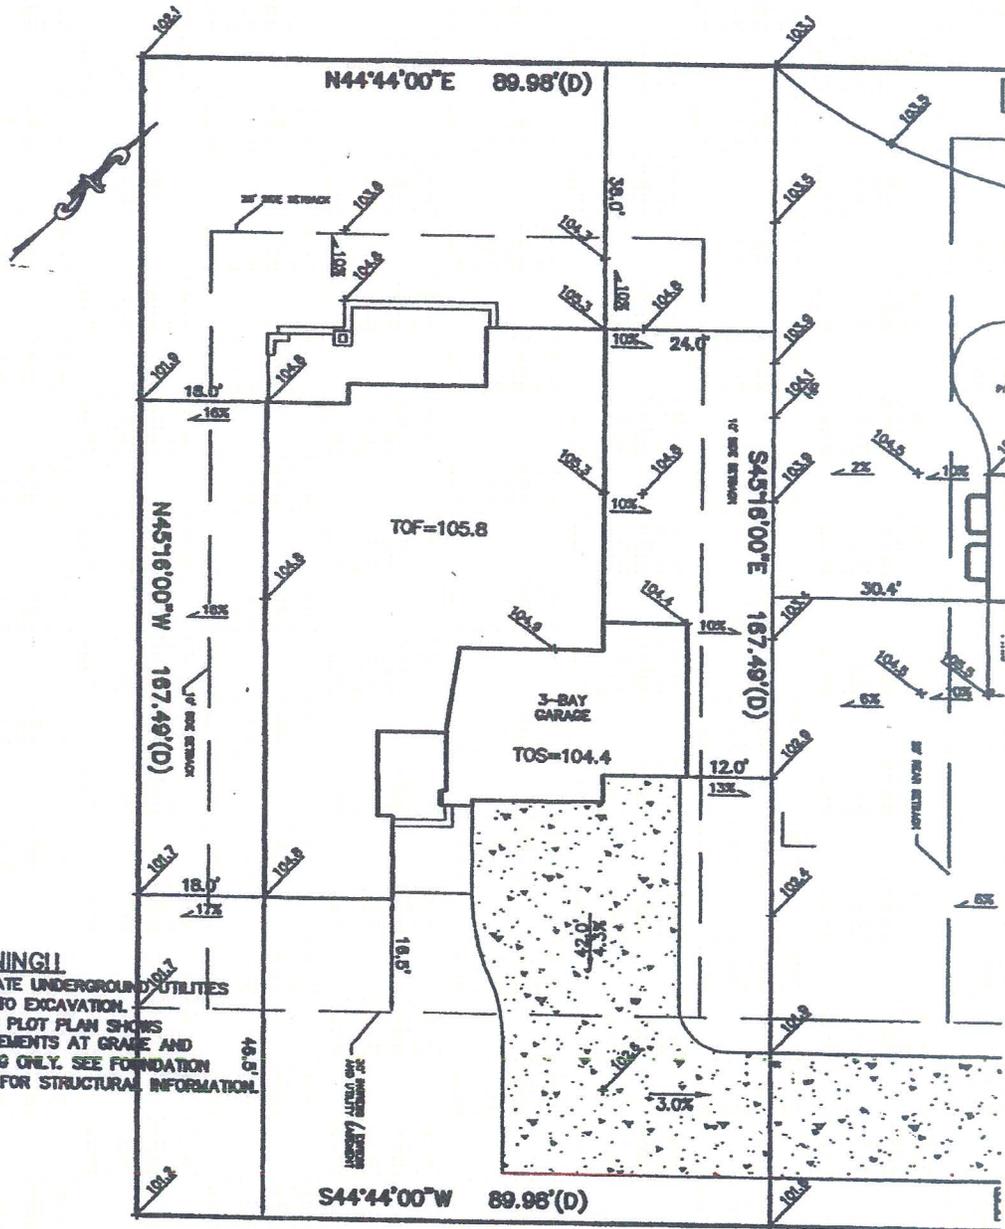

LARRY BLAUWEISS

8000 South Lincoln Street, Suite 201 Littleton, Colorado 80122 • Phone: (303)713-1898 • Fax: (303)713-1897

BOARD OF ADJUSTMENT PUBLIC HEARING

April 14, 2016

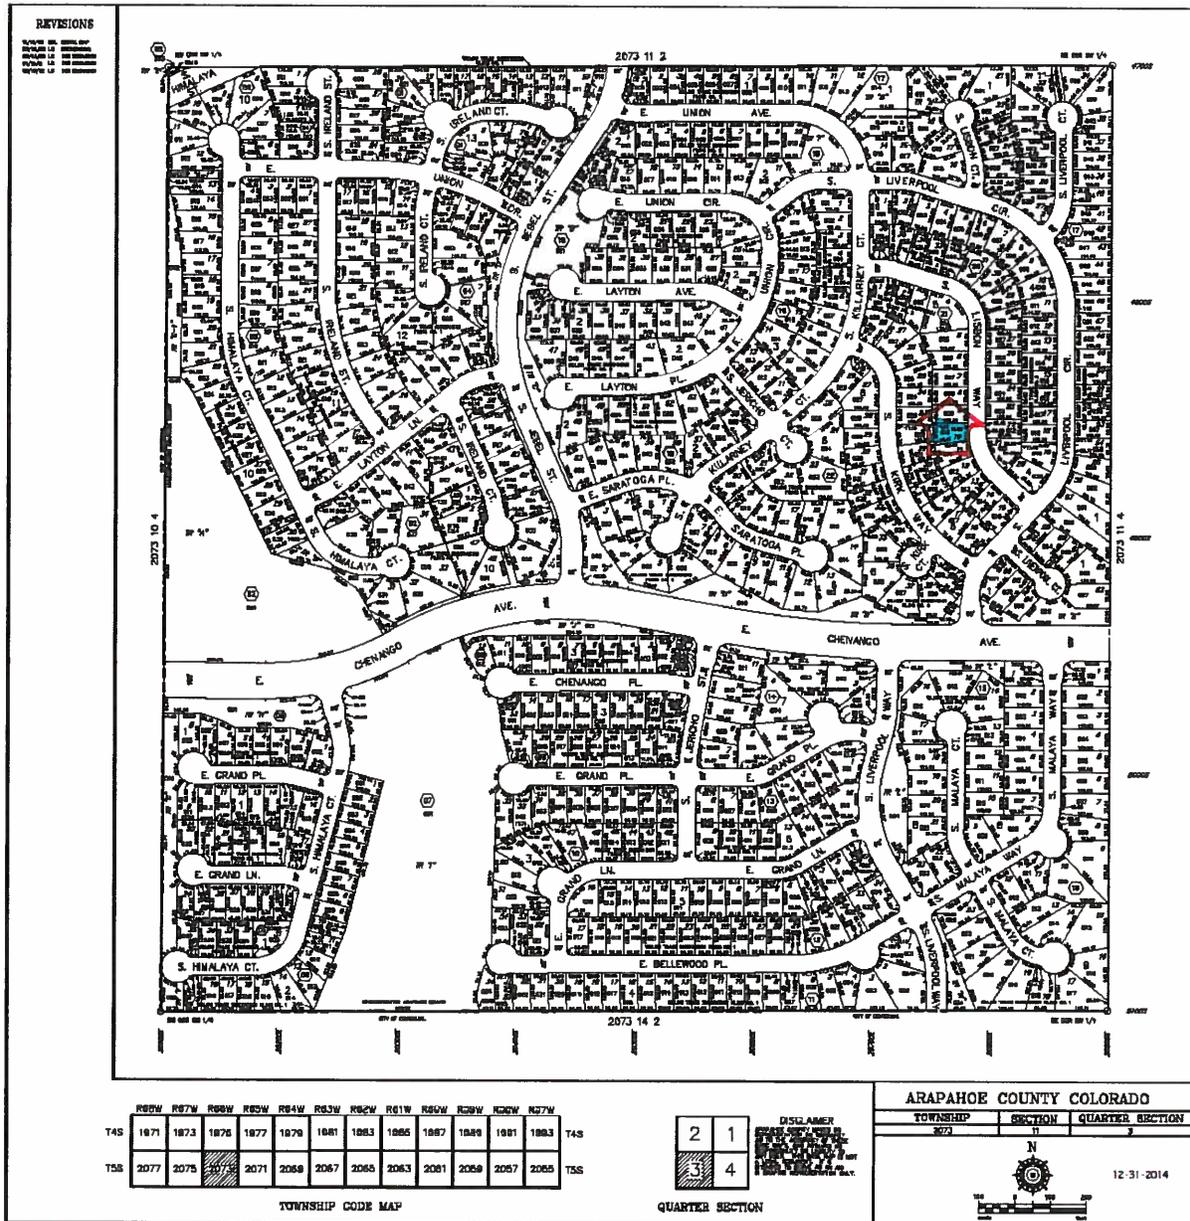

1:00 P.M.

**SUBJECT: CASE NO. B0A-2016-00004, DEBORAH A. McCABE
VARIANCE**

Michelle Lantz, Community Compliance Officer

March 22, 2016

VICINITY MAP; The site is located at 4855 S. Lisbon Way in the Willow Trace Sub-division. The property is zoned MU-PUD (Mixed Use-Planned Unit Development) and is located within Election District 3.

BOARD OF ADJUSTMENT PUBLIC HEARING

**April 14, 2016
1:00 P.M.**

**SUBJECT: CASE NO. B0A-2016-00004, DEBORAH A. McCABE
VARIANCE**

Michelle Lantz, Community Compliance Officer

March 22, 2016

LOCATION: The site is located at 4855 S. Lisbon Way in the Willow Trace Sub-division. The property is zoned MU-PUD (Mixed Use-Planned Unit Development) and is located within Election District 3.

ADJACENT SUBDIVISIONS, ZONING, AND LAND USES:

North - MU-PUD
South - MU-PUD
East - MU-PUD
West - MU-PUD

PROPOSAL:

The owner, Deborah McCabe, is requesting approval of a variance to construct a deck that will encroach 4' into the required 20' rear setback. The Willow Trace sub-division consists of small lots rendering them difficult to add usable recreational areas.

BACKGROUND:

The subject property is zoned MU-PUD which allows for single dwellings and Type A Group Homes. The lot in question is 5663 sf in size. There is a history of approved variances for decks and patio covers in the area.

13-1004 CONDITIONS FOR VARIANCE

The establishment of a hardship shall be clearly demonstrated by the applicant for variance, and the following conditions must be shown by the applicant:

13-1004.01

The strict application of these Regulations would result in practical difficulties or unnecessary hardships inconsistent with the general purpose and intent of the Regulations.

13-1004.02

Any variance shall not grant special privileges inconsistent with the limitations upon other properties in the vicinity and zoning district in which the subject property is located.

13-1004.03

Because of special, applicable circumstances, including size, shape, topography, or location, the strict application of these Regulations will deprive the subject property of privileges enjoyed by other properties in the vicinity and under identical zone classification; or that there are exceptional circumstances or conditions applicable to the property involved or to the intended use or development of the property that do not apply generally to other property in the same zone or neighborhood.

13-1004.04

That the condition or situation for which the variance is sought is not of so general a nature that the formulation of regulations would be necessary to insure consistent application of the regulations.

13-1004.05

That the granting of a variance will not be substantially detrimental to the public good and will not substantially impair the intent and purpose of these Regulations.

13-1004.06

That the granting of a variance will not be contrary to the objectives of the Arapahoe County Comprehensive Plan.

DISCUSSION:

Staff review of this application included a comparison of the proposal to the Comprehensive Plan, zoning and subdivision regulations, and an analysis of referral comments.

1. Comprehensive Plan:

The Comprehensive Plan designates this area for Residential Neighborhood.

2. Ordinance Review and additional Background Information

The required rear setback per the FDP (Final Development Plan) is 20'. The property in question consists of 5663 square feet. The applicant is proposing construction of a deck that will encroach into the rear setback.

3. Referral Comments

Comments received as a result of the referral process are as follows:

- Board of County Commissioners: N/A
- Planning:
- Engineering:
- County Attorney:

STAFF FINDINGS:

Staff has visited the site, reviewed the plans and supporting documentation, referral comments, as well as citizen input in response to this application. Based upon review of applicable policies and goals in the Land Development Code and analysis of referral comments, our findings include:

1. The proposed patio deck will be in the rear of the property. The lot is small in size which renders the rear yard difficult to use. There were no inquiry calls after the property was posted and Notices of Public Hearing sent to adjacent property owners.

ATTACHMENTS:

1. Variance application
2. Letter of intent
3. Site Plan/Project Layout
4. Aerial/Street photo of property
5. HOA approval letter
6. Ownership record
7. Referral Comments – Engineering and Planning
8. Map of variances in area

17 March 2016

Letter of Intent

To Whom it May Concern:

I am requesting a variance of 4 feet to allow for a 12 foot wide deck. As I only have 28 feet from the back fence to my house, and given a 20 foot required set back, I would only be allowed to have an 8 foot deck which does not provide adequate space for my family. I am aware of numerous homes in my neighborhood that have decks and I would just like to be able to enjoy the same at my residence.

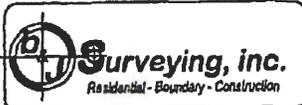

Your consideration into this matter is greatly appreciated.

A handwritten signature in black ink that reads "Deborah Anne McCabe". The signature is written in a cursive style with a large initial 'D' and 'M'.
