Weatherization services available to prepare homes for winter
Free service available to qualifying households in Arapahoe County

LITTLETON, CO --- Is your home ready for winter weather? Arapahoe County Weatherization can get your home prepared with free energy efficiency services available for qualifying households.

Through an energy audit of your home, Arapahoe County Weatherization will identify common energy culprits, such as a lack of proper insulation and inefficient appliances and furnaces. The audit also determines any health and safety issues with combustion appliances. Weatherization technicians will then provide services needed to fix the identified issues and make your home more energy efficient and comfortable.

For a limited time, Arapahoe County Weatherization has special grant funding available for households who meet all of the following criteria:

- Owner-occupied households (no renters) in Arapahoe County, excluding Aurora households
- Homes must be built before 1979
- Household income at or below 80 percent of Adjusted Median Income (see chart below)
- Homes cannot have received weatherization services before

Traditional weatherization services are available to both owners and renters residing in Adams or Arapahoe counties who are at or below 200 percent of federal poverty. To see if you qualify for these special grant funded services or traditional weatherization, call Arapahoe County Weatherization at 303-636-1982 or visit www.arapahoegov.com/weatherization for details.

Income Guidelines for Special Energy Efficiency Home Improvements Grant					
Number of People in Household	One	Two	Three	Four	Five
Maximum Gross Annual Income	\$44,750	\$51,150	\$57,550	\$63,900	\$69,050
