

Social Characteristics by District

Nativity and Place of Birth

In 2016, District 1 had the most persons born in Colorado, slightly ahead of District 3. District 2 had the most people born in a different state while District 5 had the greatest number of persons born in another country. Arapahoe County had a substantially higher proportion of foreign-born residents than the Colorado average (14.7 percent to 9.8 percent) and slightly above the US average of 13.2 percent. Since 2005, the number of foreign-born residents of the County increased from 75,600 to 91,000.

The districts ranged from 4,000 to 10,000 naturalized citizens. District 5 had the largest number of non-citizens at 22,100, while District 1 had fewer than 5,100 non-citizens. Nearly one in ten Arapahoe County residents was not a citizen in 2016. In the five years since 2010, the percentage of the county population that was foreign born has barely changed, from 14.8 percent to 14.7 percent.

District	Naturalized Citizens	Not a U.S. Citizen
1	4,018	5,039
2	7,771	6,673
3	9,043	4,904
4	9,996	13,239
5	8,305	22,056
County	39,133	51,911

Arapahoe County Colorado Demographics

Geographic Mobility

During the 2012-2016 American Community Survey, the U.S. Census asked where the residents had lived the year before. District 5 had the greatest numbers of persons who had moved in the previous year. Almost 14,000 residents of District 5 had lived somewhere else in Arapahoe County the previous year. District 2 had the least number of movers within the County at 8,400, almost half the District 5 number. District 5 had over 11,000 movers from somewhere else in Colorado, over 4,000 movers from other states, and 1,700 from abroad; all the highest numbers for any District. District 3 had the fewest persons from elsewhere in Colorado and from abroad. All of the Districts had about 4,000 movers from another state in the U.S.

Arapahoe County Colorado Demographics

The second chart compares the number of non-movers in 2015 with the same group in 2010. Like the County, each District has had more movers since 2010 with the share of non-movers dropping by 1 to 5 percentage points. This reflects the recovery from the recession as more people are able to move into the County. District 5 had the fewest non-movers in each year, dropping from 76 to 75 percent. District 4 had the greatest decrease, going from 84 to 79 percent non-movers.
