

ARAPAHOE COUNTY
PROTECT. CONNECT. ENJOY.

Agricultural use only affidavit

Each Ag only exemption must include the following items, which must be reviewed, approved and then are to be scanned and attached to the Parcel ID in the County permitting system for future reference, prior to proceeding with any construction:

- A signed letter from the applicant verifying the type of Ag use, only on Ag Zoned property
- A site plan with dimensions to all property lines, to all septic / leach field locations and to all other buildings on the property
- The submitted site plan must be reviewed by Tri-County Health Department for compliance with required setbacks and confirmation of approval must be received from Tri-County prior to proceeding with any construction
- The submittal information must be reviewed by the Flood Plain Administrator for compliance and a signed Flood Plain referral letter must be received prior to proceeding with any construction
- A completed and signed affidavit shown below
- A Notice must be added in Accela Automation stating that the images exist

By signing this affidavit, I, _____, hereby state and affirm that I am the owner of the property at the address listed below, for which I am requesting a waiver of the requirements of a building permit, pursuant to Colorado Revised Statute § 30-28-205. To be granted said waiver, I acknowledge and understand that the sole purpose of the building in question, is to provide shelter for agricultural implements, farm products, livestock, or poultry, and agree to contact the Building Department regarding any change of use. Any such change of use will likely require that a complete permit application be submitted for review and approval, fees paid, inspections be performed and a Certificate of Occupancy issued. Separate permits shall be required for any plumbing, mechanical or electrical systems that are to be installed within this structure, unless said systems have been exempted by some other Building Code Section.
