

WELCOME TO PUBLIC MEETING #1 OF 2

Arapahoe County, in conjunction with the City of Centennial and the Southeast Public Improvement Metropolitan District, is conducting this study to consider short-term and long-term improvements to address peak period congestion along the Dry Creek Road corridor. The study area includes Dry Creek Road from Yosemite Street to Easter Avenue, including the I-25 interchange.

PURPOSE OF THIS PUBLIC OPEN HOUSE

The purpose of this first public open house is to introduce the study and present existing and forecasted transportation conditions information. Examples of types of improvements that could be considered during alternatives development are being presented, and we look forward to hearing what improvements you think could have the greatest benefit.

MEETING EXHIBITS

Graphics are displayed around the room to present the following information:

- Study Introduction
- Multimodal Traffic Conditions
- Roadway Conditions
- Environmental and Community Resources
- Which Improvements are Most Needed?
- Next Steps

AGENCIES INVOLVED IN THIS STUDY

Arapahoe County
City of Centennial
Southeast Public Improvement Metropolitan District
Inverness Metropolitan District
Colorado Department of Transportation
Denver Regional Council of Governments
Regional Transportation District
