

SIGNAGE

As the recipient of an Arapahoe County Open Spaces grant, you are **required to install signage recognizing ACOS's contribution** to your project. Signs are provided for free. Please request enough signs to place at all entrances/exits to your project, as well as any information kiosks, fee stations, customer service facilities, trailheads, etc.

- Refrain from installing signage on restrooms or near trash receptacles.
- Signage should be installed at eye level.

If you have multiple funding partners and plan to install a custom sign, ACOS will provide the appropriate logo and acknowledgement language. The ACOS logo cannot be altered in any way. **Send all design proofs to lmiller@arapahoegov.com for review and approval.**

The County Grants Program Administrator will contact you to coordinate replacement signage for your entity. Replacements for old grant acknowledgment signs will be rolled out in phases beginning Fall 2016.

Thank you,

Lindsey Miller
